win championships" - Michael Jordan*

#### **WORKING AS A TEAM**

Hello {FIRST\_NAME|Friend},

Here at CERTEK, we understand the importance of working as a team. Whether internally (between our planners, designers, and technicians) or externally (between CERTEK and our vendors and clients), we believe that **Together Everyone Achieves More**. The spirit of teamwork drives everything we do; whether it's producing quality mobile laboratories and other products, creating custom maintenance plans, or providing care and support, teaming up with our customers means we want everyone to succeed.

#### **ANOTHER WAY TO WORK TOGETHER**

We are happy to announce another way that you can team up with CERTEK for the health and longevity of your employees and facilities: our **NEW Decontamination Service!** Let us do the dirty work for you by allowing our certified technicians to go through our decontamination service process by decontaminating your facility making it safer and more efficient place for your employees to work.

#### **INTRODUCING OUR NEW iDIS Door Interlock System**

We are excited to announce the upcoming addition of our New iDIS System to the CERTEK product line. This **NEW** System utilizes electric magnetic locks to prevent more than one door from opening at a time, preventing cross contamination and helping to ensure the safety of employees. However, this system has something to offer that our original DIS system does not. To find out more, talk with a CERTEK representative by calling +1-919-787-3989.

The Ultimate Door Interlock System

The CERTEK Advantage  
Product innovation at work for YOU!

#### **LET US PERFORM YOUR DECONTAMINATION PROCESSES**

Ridding your facility of harmful chemicals is now even easier when you utilize our **NEW Decontamination Service**. This service has already been used on US military bases and has been proven both efficient and effective. The decontamination process, which is performed by NSF certified personnel, includes Chlorine Dioxide gas decontamination of Biosafety Cabinets, In-Line Filters, Rooms, and Laboratory Equipment. For more information about our other product lines and services, visit our [Accessories and Kits](#) and [Training and Support](#) pages. Make sure to sign up for our newsletter by clicking the link below to stay updated on new products, services, and upcoming events.
