CERTEK Can Help In Times of Crisis

With the recent discovery and potential pandemic of the deadly Novel Coronavirus, it is more important than ever that our health professionals, scientists, and researchers have access to safe, affordable, and reliable laboratories and facilities in which to perform the testing necessary to determining causes, treatment, and the best way to contain this and other emergent biological threats. [Click here](#) to find out how CERTEK laboratories, products, and services can assist in your important research and diagnostic needs.

[ReadyPOD Mobile Laboratories](#)

[SafePOD Laboratories](#)

[Modular Laboratories](#)

Our ReadyPOD, SafePOD and Modular Laboratory solutions provide a safe, transportable and even a permanent location for your skilled scientists and researchers to perform the necessary tasks needed in a containment environment. These laboratories fit all levels of BSL-1, BSL-2 and BSL-3 bio-containment and can be fully customized to fit your needs. With the ease of placement and quickness of the set up; adaptability to any climate; and multiple equipment options; CERTEK Laboratories are an ideal option for anyone. For more information about our Laboratories, [click here](#).

[HAZguard Glovebox](#)

The HAZguard Class III Compact Glovebox is designed to allow handling and examination of biological and chemical materials without the risk of contaminating your facility or contracting pathogens. This product can help scientists and researchers with their work from threats like the Novel Coronavirus by allowing for the handling and detailed examination of such substances without the potential dangers associated with handling serious viruses and diseases.
