"Exploration is the engine that drives innovation. Innovation drives economic growth. So let's all go exploring." - Edith Widder

OUR FASCINATION WITH INNOVATION

Hello {FIRST_NAME|Friend},

In this digital age of endless technological advancement, we know that innovation is more important than ever. That's why we are always working on ways to improve our products and services. We want our clients to have the very best and most up-to-date products and services available, which is why we're so excited to introduce new products and services. Continue reading below to find out more about some of our most recent innovations.

EXPLORATION OF INNOVATION FOSTERS GROWTH

To continue to make leaps in innovation, we are constantly exploring new technologies and how they can meet the needs of our clients to help foster success and growth for both ourselves and the companies and organizations that we serve. When you explore our products and services, you will discover the potential for growth for your business or agency as well. We want our success to be your success!

Product innovation at work for YOU!*

iDIS

The intelligent Door Interlock System

We are excited to introduce one of the most recent additions to the CERTEK product line: our **NEW** iDIS System. This intelligent, multi-mode door interlock system can be used in many applications for environmental and safety control, including labs and clean rooms, darkrooms, x-ray and other treatment rooms, and more. The iDIS prevents more than one door from opening at the same time, under normal conditions, and is electrically operated using magnetic locks and magnetic door switches. The iDIS utilizes logic to work across multiple groups of doors. To find out more, email us at info@CERTEK-usa.com or talk with a CERTEK representative by calling +1-919-787-3989 or [Visit Our Website](#).

CERTEK FCO

ENHANCED CONTAINMENT PRODUCTS

Maintaining your laboratory or facility is now even easier with our **NEW** Filter Change Out Service. Our trained professionals will remove and properly dispose of your old filters via a third-party pick-up, transportation, and disposal. Then we will make sure your new filters, which are included with the service, are properly installed. For more information about our other product lines and services, visit our [Accessories and Kits](#) and [Training and Support](#) pages. Make sure to sign up for our newsletter by clicking the link below to stay updated on new products, services, and upcoming events.
