

CERTEK IS HERE TO HELP

During this turbulent time, we believe it is important to work together to keep our communities, nations, and world as protected as possible. That's why we are working diligently to make new products and services available to help keep you and your laboratories and facilities working smoothly and safely. With the COVID-19 pandemic at hand, we are focusing even more intently on providing products and services that can serve specific functions in isolation and decontamination, and to have them ready expediently.

CERTEK MOBILE DECONTAMINATION CHAMBER (CMDC)

In collaboration with Duke Health and Novant Health, CERTEK has developed a decontamination unit to process many different items, including N95 masks, on a large scale. CERTEK delivered this product in 11 days and we are proud to do our part in the fight against COVID-19. USA orders for one model can be manufactured and ready for shipping in two weeks, while international orders for the same model will take three weeks to manufacture. Visit the link below to learn more about additional features and specifications.
